

MPEP Current-Authority Package

Core sources, superseding materials, and post-cutoff filing-practice supplement

Scope. This document is an authority map and official-link package, not a substitute for the controlling statutes, regulations, Federal Register notices, Official Gazette notices, judicial decisions, or USPTO source PDFs themselves.

1. Currentness baseline

The current Manual of Patent Examining Procedure is the Ninth Edition, Revision 01.2024, published in November 2024. USPTO states that it is current only through January 31, 2024. For later changes, USPTO directs users to current fees, consolidated patent laws, consolidated patent rules, and the Subsequent Publications listing.

- **Patent laws:** USPTO consolidated Appendix L is current as of July 18, 2025; public laws remain authoritative.
- **Patent rules:** USPTO consolidated Appendix R is current as of July 20, 2026; Federal Register sources remain authoritative.
- **Post-MPEP examination changes:** USPTO's Subsequent Publications listing is current as of July 20, 2026.
- **Additional supplement:** a DOCX/Patent Center procedure notice dated August 3, 2026 and published in the September 1, 2026 Official Gazette post-dates the July 20, 2026 cutoff.

2. Core official sources

[USPTO MPEP landing page - Ninth Edition, Revision 01.2024](#)

[Current revision - zipped PDF set](#)

[Consolidated Patent Laws - July 2025 Update](#)

[Consolidated Patent Rules - July 2026 Update](#)

[Subsequent Publications \(After January 31, 2024\) - July 2026 Update](#)

[MPEP Revision 01.2024 Change Summary](#)

[Memoranda to the Examining Corps](#)

[Subject Matter Eligibility guidance](#)

[Patent-related notices - 2026](#)

[September 1, 2026 Official Gazette notices](#)

3. Materials that USPTO says supersede portions of the current MPEP

[Revised Form Paragraphs for Design Patents and Applications - Jan. 14, 2025](#)

[Revised/New Form Paragraphs in view of FY2025 patent fees - Jan. 17, 2025](#)

[PE2E Similarity Search guidance - Oct. 24, 2025](#)

[False assertions/certifications of entity status - Oct. 24, 2025](#)

4. Provisional-application drafting gate for this project

For a provisional application under 35 U.S.C. 111(b), a claim under 35 U.S.C. 112(b)-(e) is not required, but the provisional must include a specification prescribed by 35 U.S.C. 112(a) and any necessary drawing. A later nonprovisional claim receives the provisional filing-date benefit only to the extent the provisional's written description and drawings adequately support and enable that claimed subject matter.

[MPEP § 601 - Content of Provisional and Nonprovisional Applications](#)

[MPEP § 211 - Benefit of Earlier Filing Date / provisional support](#)

[MPEP § 2164 - Enablement Requirement](#)

5. Project-specific high-priority chapters/guidance

- **Chapter 600:** application content, provisional filing mechanics, drawings, and papers.
- **Chapter 700:** examination procedure.
- **Chapter 800:** restriction practice - important to the broad pest / feral-pig species ladder.
- **Chapter 900:** prior art and searching.
- **Chapter 2100:** 35 U.S.C. 101/102/103/112 patentability, including current post-MPEP eligibility and obviousness guidance.
- **Means-plus-function resources:** directly relevant to the working phrase "lethal means."
- **AI practice/inventorship guidance:** relevant to AI-assisted drafting and conception/inventorship records.

6. Current-rule versus watchlist distinction

Do not treat proposed rules as current requirements. In particular, the July 22, 2026 Federal Register item on identifying all real parties in interest in third-party ex parte reexamination should remain a watchlist item unless and until a final rule becomes effective.

7. Recommended verification protocol

- For any filing or prosecution decision, check the MPEP landing page, current consolidated rules, Subsequent Publications, the current-year patent-notices page, and applicable examiner memoranda on the date of action.
- For statutory or regulatory text, verify against the enacted public law or Federal Register/e-CFR source if authenticity or effective date matters.
- For this project, maintain the spreadsheet MPEP Update Register as the working change log and record any new notice or memo before relying on an older MPEP section.
